Stephany Mazon, a Mexican who lives in Finland, the winner of the ENVRI Chef Challenge

Closing Session – the feedback

🌐 Your responses will help us improve the quality and relevance of our future training events

Your Feedback on the ENVRI Community International Winter School DATA FAIRness

We would like to ask you to give us some feedback, your responses will help us improve the quality and relevance of our future events. The questionnaire is anonymous, and no personal data is recorded about the participants.

Thank you in advance for your time,

The ENVRI-FAIR WP6 core team

 ENVRI winter school - Feedback

Closing Session – follow up

- 🌐 Next week you will receive by email the certificate of attendance (for those who sent their report and presentation)
- 🌐 Since we are very interested in hearing your stories/use cases we will consider to arrange a separate follow-up session in a few days to give people that had problems (microphone issues, no time to prepare the presentation due to work deadlines, etc.)

Stay tuned...

- 🌐 GDPR issue: do you provide us the permission to use/reuse some of the outcomes of the school (for purposes associated to the WP6 of the ENVRI-FAIR project), including (anonymously) sharing summaries of presented use cases?
- 🌐 Moreover, can we share among participants your name and email (request from some participants)
- 🌐 **Please, send us an email within next Monday January 25th if you are against this**
